WALTER MAC KENZIE RECEIVES TOP AWARD

WALTER C. MAC KENZIE, who retired at the end of June as Professor of Surgery and Dean of Medicine, has received the F.N.G. Starr Award for his "outstanding services to the practice of medicine and the advancement of medical education in Canada."

The award, the greatest honor that can be bestowed by the Canadian Medical Association (CMA), was presented last week

Dr. MacKenzie

at the CMA's annual meeting in Toronto. It was established 38 years ago in honor of Dr. Frederick Newton Gisborne Starr, a former general secretary and the 1927 president of the CMA.

Earlier this month, announcement was made of the establishment of the Walter MacKenzie Visiting Professorship Endowment Fund totalling more than \$55,000. The fund will enable the University to invite scientists and educators to the University as visiting professors for four- to six-week periods.

Dr. MacKenzie's first appointment in the Department of Surgery was made in 1939. He became Dean of the Faculty of Medicine in 1959. Under his guidance a strong clinical research program was established in the faculty and the teaching programs were revised and strengthened to benefit Dr. MacKenzie's number one concern, the student.

CORNS, "Some aspects of wildland vegetation management, glyphosate for cropland quackgrass control, and rapeseed oil as a herbicide carrier."

Lunch will be available at noon at the site, or guests may take their own. The plot tours at the Parkland and Ellerslie Farms will begin at 1 p.m. and continue until 5 p.m. In the event of rain, indoor presentations will be made at Parkland Farm.
